Comment on the Lease sale at this site:

Dear Ms. Wysong

Please reconsider leasing this site. I am particularly concerned about the potential for mining in the vicinity of the Pando Quaking Aspen and the Greater Sage Grouse.

It would be hypocritical to allow further fossil fuel development in this region or any other given our nation's pledge to reduce Greenhouse Gas Emissions at the Paris Climate talks.

Thank you.

Thanks Stan. Protests have to either be sent hard copy or faxed, so we don't have to consider it.

Sheri

Do I need to consider the comment that has the May Lease Sale in the subject line but appears to be specific to the Fishlake parcels and the February Sale.
